

PRO MX-22 "MICRO"

The Smallest & Lightest Fully Capable Smoke Machine

Our model Pro MX-22, the "MICRO" is the world's Lightest & Smallest fully capable smoke machine fully digital both readouts and flow meter. Weighing in at only 2.5lbs. As with all our "Next Evolution" smoke machines the "MICRO" performs all the necessary tests to locate leaks and performs air leak decay tests to verify that the leak or leaks have been repaired properly. Equipped with a built in Air Compressor and with a fixed air pressure rate (1.5 psi) so as not to harm the EVAP system or other vehicle systems. The unit comes complete with all the necessary adaptors that is required.
