Protect Nylon Lines For Improved Durability and Safety

K710

3/8" Expandable Braided Sleeve (25')

- Durable, abrasion-resistant sleeve protects lines from road debris and elements
- Material is easy to cut with scissors producing clean ends without frays
- Use with nylon lines up to 1/2"
- Multiple uses including protecting fuel lines, wire harnesses, plug wires and more
- 25' Roll

14005

Heat Shield Sleeve (5')

- Safely protects nylon lines when located near heat sources including mufflers and manifolds
- Use with nylon lines up to 3/8"
- Easy to route including when used in tight spaces
- Adhesive-free materials make installation simple without messy residue of heat tape
- 5' roll
