

Model # 8750

**WATERBORNE
DRYING FAN
WITH STAND**

UP TO 1200 CFM'S OF DRYING AIR AT A GREAT VALUE

**STAINLESS STEEL
BLADES**

The unit is provided with static free stainless blades

**STAINLESS STEEL
MOTOR CASE**

Stainless motor case ensures a longer life motor and easy paint clean up

OIL LESS MOTOR

Motor has been designed to be used inside of a spray booth. No oils or particles to contaminate the paint booth.

Uses from 4 to 6 CFM's to move up to 1200 CFM's of drying air.

Conventional jet air dryers use COLD compressed air which delays the drying process.

AIR REGULATOR

The regulator is preset to limit the amount of air going to the motor for a longer life motor.

**SWIVEL MOUNTING
DESIGN**

The adjustable swivel design allows for multiple fan positions.

The tripod stand makes the unit mobile and it adjusts from 50" to 72" allowing air flow to be directed to any desired area.
